### THE LONDON MEDICAL RECORD:

A REVIEW OF

THE PROGRESS OF MEDICINE, SURGERY, OBSTETRICS, AND  
THE ALLIED SCIENCES.

#### THE LONDON MEDICAL RECORD,

A condensed, readable, and reliable Analysis, by eminent hands, of the immense mass of information relating to the Medical Sciences now scattered over the surface of British and Foreign Medical Literature. It contains also each week a complete Tabular List of all Vacant Medical Offices and Appointments; of great value to Medical Men seeking employment or advancement.

'Of recent events interesting to physiology which are not of the nature of research, I would mention two. One of these is the progress which has been made in the establishment of working places--laboratories--where those who are capable of carrying out investigation may find the space, the material, and the appliances for their work. The other is the establishment of a journal, the *Medical Record*, which is intended for the purpose of keeping those who are actively engaged in practice *au courant* of the work which investigators are doing in different parts of the world for the advancement of medicine. For there is nothing which is so likely to stimulate and maintain an interest in physiology and pathology among the younger members of our profession as the facility which a journal of this kind affords for acquiring accurate information as to the progress of research.'--*Professor Burdon Sanderson, F.R.S.*: Address to the British Medical Association, August, 1872.

Published Weekly, on Wednesday, Price 4d. Annual Subscription 17s. 4d.; free by post 13s. 6d.
